

Mystic Tan™

tanning instructions brought to you by:

Sunkissed Tanning

www.sunkissedtan.com

Before You Tan

- * Shower and exfoliate before you tan and for best results, do not use moisturizers!
- * Make sure to shave, wax, and manicure/pedicure before your tan!
- * Ask your Mystic Tan™ consultant about skin preparation for best results.
- * Remove all articles of clothing, including jewelry, and other accessories.
- * Cover hair behind the hairline with hair cap, leaving ears exposed.
- * Apply blending cream to fingernails, cuticles and hands and toe nails, cuticles, and tops of feet.

While You Tan

- * Enter unit, and close the door.
- * Stand on oval positioning plate, facing nozzles.
- * Press the green start button to activate unit.
- * Unit will start spraying in 5 seconds.
- * The initial burst of spray can be startling and may seem cool.
- * Face the nozzle in the proper stance.
- * Unit will spray for 14 seconds.
- * When spraying stops, turn around.
- * Face the back wall in the proper stance.
- * Unit will automatically start spraying again in 10 seconds.
- * Unit will resume spraying an additional 14 seconds.
- * When the spraying stops, wait 30 seconds before exiting the booth.

After You Tan

- * Use a paper towel to wipe off barrier cream from hands and toes.
- * Use another paper towel to remove hair cap.
- * Use a bath towel to wipe down your entire body from head to toe, until body is completely dry.
- * Leave Mystic Tan solution on for minimum of 4 hours for best results.

Maximum Results

Life and appearance of your tan depends on condition of your skin. Exfoliating before your tanning session creates a better tanning surface which helps you achieve a flawless looking tan. Always moisturize between tans to extend the life of your tan.

Ask your sales consultant about the Mystic Tan product line.

Doing consecutive Mystic Tans in the same day may cause color imperfections and is not advised by Mystic Tan™, Inc.
